Mental Illnesses

A mental illness is a medical condition that disrupts a person's thinking, feeling, mood, ability to relate to others and daily functioning. Just as diabetes is a disorder of the pancreas, mental illnesses are medical conditions that often result in a diminished capacity for coping with the ordinary demands of life.

Serious mental illnesses include major depression, schizophrenia, bipolar disorder, obsessive compulsive disorder (OCD), panic disorder, posttraumatic stress disorder

(PTSD) and borderline personality disorder. The good news about mental illness is that recovery is possible.

Mental illnesses can affect persons of any age, race, religion or income. Mental illnesses are not the result of personal weakness, lack of character or poor upbringing. Mental illnesses are treatable. Most people diagnosed with a serious mental illness can experience relief from their symptoms by actively participating in an individual treatment plan.

Camp Crisis Hotline

ACA's 24-Hour Service to Camps in Crisis

800-573-9019

The ACA Camp Crisis Hotline is a 24-hour a day service. The Hotline serves as a resource for camps in crisis and provides callers the opportunity to talk through their crisis with a trained third party. While the hotline is not a medical nor legal "expert" call line – it can help you think through your issues and discuss options.

Top Resources

The ACA Camp Crisis Hotline was established in 1985. After 30 years of serving camps, the Hotline Team has found a number of go-to resources that seem to be popular year-after-year. We share these resources to help you prepare for your camp season:

For additional risk management resources visit the [Risk Management Core Competency Toolkit](#)
